22 July 2008

Dear Dr Wagner Nunes,

### **Outcome of the Spring 2008 ETSF evaluation of proposals**

Thank you for your proposal for a project entitled "Ground-state and transport properties of nanostructures and dislocations in semiconductors".

All projects proposed have now been reviewed by the External Evaluation Panel of the European Theoretical Spectroscopy Facility (ETSF), and the Steering Committee has allocated resources accordingly. I would like to inform you that your proposal has been recommended for ETSF training.

The ETSF scientist in charge will be Angel Rubio ([arubio@sc.ehu.es](mailto:arubio@sc.ehu.es)). As you have already agreed with him, two students of your group will be invited to the next ETSF training session in Benasque, with some financial support.

I hope this decision meets your approval and look forward to a successful engagement.

Yours sincerely,

Lucia Reining  
(ETSF Vice President for Users and Technology)
